IN: Lengthen the spine and pull the knees apart. EX: Gradually contract your abdomen.</p>
15		<p>MOUNTAIN POSE / TADASANA. Stand tall, breathe deep. Feel the stability of your body in this position, sense your bones. How do you feel about your bones right now? Do you trust them to support you? Stay aware of how you feel for the next several breaths.</p>
16		<p>FINGER FLICKS. Sit down in a chair and place your hands on your knees, palms up. With each hand: Place your thumb at the base of your index finger. Slide your thumb along your finger and over the tip, and then flick it. Repeat with each finger.</p>
17		<p>MURTI MUDRA. Interlace the fingers of both hands with your R thumb on top. Extend your little fingers and rest them against each other. Place your hands on your lap. Breathe deeply and slowly. IN: Imagine drawing the air in through your nose and down into the belly. EX: Imagine directing the energy from your belly down through your legs into the ground. Keep your spine long and buoyant. With every inhalation imagine cultivating the sense of buoyancy, and with every exhalation imagine cultivating the sense of stability and support. Continue for 5 minutes. Then see if you can cultivate both feelings (of stability and ease) at once. IN/EX: Repeat mentally: I am stable, I am at ease (if it works for you). Continue for 6 breaths. Afterward, check in and notice how you feel.</p>
